

MX SYN 4T

ADVANCED
FULLY SYNTHETIC
MOTORCYCLE OIL

MaxPro1 MX SYN 4T is a superior quality fully synthetic engine oil intended for the lubrication of four-stroke engine of high performance motorcycles. It combines high performance synthetic technology and a precisely balanced component system to help provide outstanding engine cleanliness, excellent wear protection at high temperatures and highly effective protection from corrosion. Engine is protected by optimal maintenance of oil film thickness even in the most extreme load or speed conditions.

MaxPro1 MX SYN 4T is formulated with the latest **JASO MA2** specifications, thus preventing clutch slippage at start-up and varying speeds.

APPLICATIONS

MaxPro1 MX SYN 4T is perfectly compatible with catalytic converters. The oil-change intervals recommended by the constructors and the minimum required viscosities must be complied with.

FEATURES AND BENEFITS

- Maximum protection at peak RPM and power levels to help extend engine life
- Exceptional thermal stability to resist deposit formation
- Enhanced corrosion protection
- Exceptional oxidation protection
- Excellent wet Clutch performance and friction durability
- Protects the latest high performance engines from start up to full power over a wide range of ambient temperatures.
- Stay-in-grade capability ensures consistent performance for the full oil service life.
