

MULTI CVT

HIGH PERFORMANCE
SYNTHETIC-BLEND
TRANSMISSION FLUID

MaxPro1 Multi CVT Fluid is a synthetic blend lubricant designed to suit a broad range of Continuously Variable Transmission (CVT). It is specifically formulated for today's technologically sophisticated variable transmissions. This product is manufactured with premium base stocks, long-life friction modifiers, special anti-wear additives, and shear stable viscosity modifiers. It provides stable, optimum metal-on-metal friction between belt and pulley with minimal wear and outstanding anti-foaming performance that are required by CVT.

APPLICATIONS

MaxPro1 Multi CVT Fluid is recommended to use in a wide variety of vehicles equipped with push-belt CVTs. It is especially suitable for vehicles from American, Asian or European car makers.

MaxPro1 Multi CVT Fluid is suitable for use in the applications for which the following OEM specs are recommended:

Nissan NS-2, Honda HMMF, Toyota TC and Mitsubishi SP III (CVT)

NOTE: Not for use in Hybrid CVT units (Toyota and Ford) and Dual-clutch transmission

FEATURES AND BENEFITS

- Allows fuel economy for cars fitted with CVT automatic gearboxes by providing optimum metal to metal friction
- Provides high anti-shudder performance to avoid engine vibrations for increased comfort
- Gives superior automatic transmission response through smooth shift feel and reduced shift time lag.
- Extends life time duration due to high shear stability at hot temperatures and high oxidation resistance
- Increases of wear protection
- Anti-corrosion. anti-foam

TYPICAL PHYSICAL CHARACTERISTICS

	Multi CVT
Product Code	3020
Appearance	Green/Blue
Density (15°C), g/cm ³	0.8496
Viscosity @ 100°C, cSt	7.2
Low-temperature viscosity (-40°C), mPa·s	9,000
Pour point, °C	-45 Max.
Copper strip corrosion (100°C, 3 h)	1a
Foaming prevention, ml/ml	
Seq. I	0/0
Seq. II	10/0
Seq. III	0/0
