

MaxPro1 Maxicool ELC is a premixed glycol-based coolant with extended life performance. It is an Organic Acid Technology (OAT) type of radiator coolant which is free from amine, silicate, borax, nitrite and phosphate. This product offers excellent heat transfer properties and superior parts protection at high temperatures.

MaxPro1 Maxicool ELC contains high-performance anti-rust additives and corrosion inhibitors. It provides maximum protection to all common metal parts, including solder, steel, copper, brass, cast iron and aluminium or mixed aluminium.

MaxPro1 Maxicool ELC is compatible with all conventional anti-freeze/coolant and will not harm hoses, plastics or original vehicle finishes.

APPLICATIONS

MaxPro1 MaxiCool ELC can be used in the cooling systems of all types of liquid-cooled automotive and industrial internal combustion engines. It is dyed orange for easy recognition.

FEATURES AND BENEFITS

- A high quality extended long life coolant with expected service life of 5 years or 250,000 km
- OAT product that is usable worldwide
- No silicate dropouts or gel formation during storage or use
- Compatible with all conventional antifreeze/coolant in the market.
- Compatible with the common plastic materials and metal parts in a cooling system
- Outstanding hot surface aluminium protection
- Superior winter freezing and summer boil over protection
- Good foam resistance
- Distinctive orange colour for easy identification
